Bring the power of CIRRUS to your practice.
CIRRUS HD-OCT Review Software
CIRRUS™ HD-OCT Review Software enables dynamic viewing of images and analyses at remote locations, such as your laptop or satellite office.

- Allows detailed analysis of data in your office, patient exam lane, research center, or offline setting.
- Facilitates patient education by bringing dynamic display and 3D Advanced Visualization into a convenient location.
- Enables data access on Review Station even while instrument is being used for scanning.
- Supports simultaneous connection to multiple review stations.

Configuration Options

Instrument Database Mode

- Review Stations connect directly to one CIRRUS instrument database through a peer-to-peer office network.
- Limited to 10 simultaneous Review Station connections.

FORUM® Archive Mode*

- Review Stations connect to one or more CIRRUS instruments through a central FORUM® Archive.
- Supports more than 10 simultaneous Review Station connections.
- Enables data access when CIRRUS instrument is offline or not available.
- Provides local database option for data portability and offline analysis.
- Available with optional EMR connectivity.

*Requires ZEISS FORUM Archive or FORUM Archive & Viewer Software

Minimum System Requirements

The system running CIRRUS Review Software must meet the following minimum requirements:

<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Processor</td>
<td>Intel Dual Core, at least 2.0 GHz</td>
</tr>
<tr>
<td>Memory</td>
<td>4 GB RAM</td>
</tr>
<tr>
<td>Disk Space</td>
<td>20 GB hard drive</td>
</tr>
<tr>
<td>Resolution</td>
<td>1024 x 768 pixel screen resolution; 32 bit color</td>
</tr>
<tr>
<td>Network</td>
<td>100 Mbps LAN (for access from a remote or satellite office, a minimum speed of 50 Mbps is required)</td>
</tr>
<tr>
<td>Graphics card</td>
<td>3D Volume Rendering requires DirectX 9.0c support and Pixel Shader 3.0 or above</td>
</tr>
</tbody>
</table>
