EyeMag Medical Loupes from ZEISS
Seeing is believing
Treating with flexibility.

ZEISS EyeMag Medical Loupes

Medicine today requires meticulous attention to detail. Seeing tiny anatomical structures is not possible without correct magnification and high-quality optics. Clarity and precision enable successful treatments and optimal quality care.

ZEISS EyeMag Medical Loupes

Precision at first sight

EyeMag® medical loupes from ZEISS offer premium optical performance for first-time and experienced users. Equipped with LED illumination, the visualization tools provide great image clarity and depth of field over the entire treatment area. Easy to use and comfortable to wear, ZEISS EyeMag medical loupes combine elegance with functional design in a wide range of working distances and magnification levels.

ZEISS EyeMag Smart

- With 2.5x magnification, ideal for applications that require a large field of view and excellent depth of field
- Available with titanium eyeglass frame or fashionable sports frame

ZEISS EyeMag Pro F and ZEISS EyeMag Pro S

- Edge-to-edge sharpness with up to 5x magnification, ideal for users with high magnification needs
- Available with titanium eyeglass frame or comfortable headband

EyeMag Light II

- Combined with high-quality ZEISS optics, the powerful EyeMag Light II® provides crisp detail recognition and an unaltered view of tiny structures
- Perfect fit for all ZEISS EyeMag medical loupes

* A SCHOTT AG product
ZEISS EyeMag Smart
See the whole picture with stunning detail

With 2.5x magnification, ZEISS EyeMag Smart medical loupes provide images with impressive color rendition of anatomical structures. The large field of view and striking depth of field allow easy visualization of the entire treatment area. When magnification is not needed, the loupe can simply be flipped up, offering the wearer an unobstructed view.

Available in an elegant, lightweight titanium or sports frame, ZEISS EyeMag Smart medical loupes feature a range of settings for flexible tilt and angle views and a comfortable, ergonomic fit. Quick and easy to adjust, the medical loupe settings remain stable. The result: the ZEISS EyeMag Smart is a good choice for users requiring a compact and easy-to-operate medical loupes.

ZEISS EyeMag Smart with sports frame

Style, function and comfort
ZEISS EyeMag Smart medical loupes are also available with a compact, lightweight and stylish sports frame, providing good wearing comfort during longer procedures. The curved lens design protects the wearer against splash and debris.

Protection for laser procedures
Special ZEISS EyeMag Smart medical loupes for surgeons performing laser therapies offer high-quality laser protection* combined with advanced visualization. This model meets laser safety requirements of the European standard EN 207.

* A PROTECT-Laserschutz GmbH product
ZEISS EyeMag Pro
Advanced visualization for professional applications

Experienced users with higher magnification needs will appreciate the advanced visualization capabilities of the ZEISS EyeMag Pro. Available in various magnification levels (3.2x–5x), ZEISS EyeMag Pro medical loupes provide high-contrast stereoscopic images with edge-to-edge sharpness for detail recognition and differentiation. When magnification is not needed, optics can simply be flipped up.

Mounted on either a lightweight titanium eyeglass frame (ZEISS EyeMag Pro F) or with a headband (ZEISS EyeMag Pro S), the medical loupes offer settings for a wide range of tilt and angle views while supporting a comfortable, ergonomic working position. Settings are quick and easy to adjust and remain stable at all times.

ZEISS EyeMag Pro F
with titanium eyeglass frame

ZEISS EyeMag Pro S
with headband

Clamping mechanism
For setting the height and tilt of the optics

Soft nose bridge
For a comfortable fit

Flip-up function
Unobstructed vision facilitates eye contact with the patient in seconds

Headband
Provides even weight distribution and comfort

Elastic headband
Ideal weight distribution provides a perfect fit

Adjust to the shape of your head
Quick and easy adjustment for individual needs

Vertical adjustment
Fast and easy positioning of the optics

Locking lever
Set the eyepiece tilt to any desired viewing angle – even for extreme treatment positions

Washable textile pads
High wearing comfort, easy removal and cleaning

Titanium eyeglass frame
Benesch protective side shields, prescription lenses can be fitted by an optometrist or an optician at any time

Folding bridge
Fast and intuitive adjustment of the interpupillary distance (PD)

Lens protection device
Shields the objective lens against tissue debris. Features high-quality ZEISS anti-reflective coating

High-quality surface
Enables standard disinfectants

Mounting on either a lightweight titanium eyeglass frame (ZEISS EyeMag Pro F) or with a headband (ZEISS EyeMag Pro S), the medical loupes offer settings for a wide range of tilt and angle views while supporting a comfortable, ergonomic working position. Settings are quick and easy to adjust and remain stable at all times.

ZEISS EyeMag Pro F
with titanium eyeglass frame

Folding bridge

Settings are quick and easy to adjust and remain stable at all times.
EyeMag Light II
Lighting the way

The powerful lighting of the EyeMag Light II maximizes illumination intensity for high detail recognition. Combined with high-quality ZEISS optics, the LED illumination provides a clear, sharp view of tiny details and structures thanks to its close resemblance to daylight and even distribution of light.

Two powerful rechargeable battery packs and a charging cradle are part of the standard package allowing practically interruption-free work – 24/7. The compact, portable, and ergonomic design optimizes comfort for daily use across a wide range of procedures.

Active temperature control
Intelligently designed to protect against overheating of the light source, ensuring high comfort for the user.

Adapter
Easy attachment to all ZEISS EyeMag medical loupes.

Power cable
Flexible for high mobility.

Fully illuminated field of view
In combination with ZEISS EyeMag Smart and EyeMag Pro.

Powerful LED light source
Bright illumination of the entire field of view.

Illumination as needed – flexible and mobile

In combination with ZEISS EyeMag Pro F and EyeMag Pro S medical loupes, EyeMag Light II offers almost coaxial light, resulting in minimal shadow formation.

Swing-in orange filter for EyeMag Light II prevents premature curing of composite materials.

Two rechargeable battery packs with a convenient charging cradle for practically interruption-free work.

Charge level indicator
- Battery uptime
- Battery charge time

Practical belt clip
for freedom of movement

Single button
3-step intensity control

Unlike illuminations with conventional lens configurations, EyeMag Light II with its clearly defined illuminated field offers even and powerful illumination across the entire field of view of your ZEISS loupes.

Fully illuminated field of view
In combination with ZEISS EyeMag Smart and EyeMag Pro.

Uniview loupes
For maximum flexibility with minimal shadow formation.

Select the ideal medical loupe design and configuration for you

ZEISS EyeMag Smart
- Flip-up medical loupes featuring a Galilean design
- 2.5x magnification provides large fields of view for comprehensive visualization of the surgical area
- Easy, intuitive operation – ready for use in seconds
- Comfortable, ergonomic fit
- Available with three different carriers:
  - ZEISS EyeMag Smart with titanium eyeglass frame
  - ZEISS EyeMag Smart with sports frame
  - ZEISS EyeMag Smart with laser protection
- Compatible with EyeMag Light II LED illumination

ZEISS EyeMag Pro F and ZEISS EyeMag Pro S
- Flip-up medical loupes featuring a Kepler design
- For users with high magnification demands
- Large selection of different models available in different combinations of magnification levels and working distances
- Available with two different carriers:
  - ZEISS EyeMag Pro F with titanium eyeglass frame
  - ZEISS EyeMag Pro S with headband
- Compatible with EyeMag Light II LED illumination

Measure your working distance
Measure the typical distance from your eyes to the object of interest to determine the preferred working distance.

Select the right combination
For the selected working distance, decide what combination of magnification and field of view will best suit your application. An overview of all fields of view and magnification levels is available on pages 12/13.
Optical properties
Fields of view (actual size)

The following fields of view are possible depending on the working distance and the desired magnification. These determine the selection of your individual medical loupes.
